OUTLINES.

Rev. Dr. Jas. K. Hazen died at his home near Richmond, Va. —— The hearing in the Wilcox case before the N. C. Supreme Court will not be delayed. —— The Southern Railway passed its usual quarterly dividend on its preferred stock. —— The situation in Venezuela has improved and little danger now threatens American interests there. —— No developments in the war manoeuvres of the Navy on the New England coast. —— Striking miners closed a washery and a colliery yesterday near Wilkesbarre, Pa. —— The President of the S. A. L. denies rumors of sale of the system. —— A posse is in pursuit of a band of outlaws said to have committed many crimes in Kentucky. —— President Roosevelt has entered upon his New England tour. —— A cable car at Kansas City, Mo., wrecked in collision with another car; one man was killed and a score or more were injured. —— A twenty-five million dollar trust is proposed to take in all axe manufactories, handle factories and grindstone works in this country. —— Another severe eruption of Mont Pelee on the island of Martinique is reported. —— Fire broke out in the tower of the Catholic Protectory in Westchester, N. Y.; damage estimated at $10,000. —— About 1,500 girl cheroot makers in Richmond, Va., are on a strike. —— New York markets: Money on call was steady at 3½@4 per cent.; cotton steady at 9c; flour—was firmly held again and more active; wheat—spot steady, No. 2 red, 76½; corn—spot firm, No. 2, 66c; oats—spot dull and unsettled; No. 2, new 35c.; rosin steady; spirits turpentine barely steady at 47¼@47½c.

WEATHER REPORT

U. S. DEP'T OF AGRICULTURE,
WEATHER BUREAU,
WILMINGTON, N. C., Aug. 22

Meteorological data for the 24 hours ending 8 P. M.:

Temperatures: 8 A. M., 73 degrees; 8 P. M., 80 degrees; maximum, 90 degrees; minimum, 69 degrees; mean, 80 degrees.

Rainfall for the day, .09; rainfall since 1st of month to date, 2.27.

COTTON REGION BULLETIN.

Temperatures have continued high in all sections. Heavy local rains have fallen in North Carolina, and moderate showers in Georgia, South Carolina, Tennessee, and Mississippi. Light local rain is reported in the Galveston district. Rainfall at Goldsboro, 1.53; Newbern, 3.05.

FORECAST FOR TO-DAY.

WASHINGTON, Aug 22.—For North Carolina: Showers Saturday and Sunday; light to fresh winds mostly northerly.

Port Almanac---August 23.

Sun Rises	5.24 A. M.
Sun Sets	6.40 P. M.
Day's Length	13 H. 37 M.
High Water at Southport	10.37 A. M.
High Water Wilmington	12.37 P. M.

It was a 300 pound youth who touchingly sang at an Atchison, Kansas, church sociable, "Rock Mr to Sleep, Mother." His mothee wasn't there, and none of the other women would undertake it.

The *Jewish World*, published in New York, estimates on what it deems good authority that there are in Manhattan island 584,788 Jews, which is nearly 27 per cent. of the population. In the Greater New York they constitute 16.5 per cent. of the population.

Mr. Schwab contradicts the report that he intended to resign the Presidency of the Steel Trust. He is only going to take a rest, and has no notion of resigning. If we drew his $250,000 a year salary, with incidentals thrown in, we don't think we would either.

The Chicago *Chronicle* emphatically denies that Congressman Cannon, of Illinois, is worth $1,000,000. His last inventory of wealth showed that he had 17.74 cents deposited in a cracked teapot, and a heifer calf in a pasture. The presumption is that it was a hired pasture, as it was not inventoried.

New Albany, Ind., has an imported citizen of the Greek persuasion, who brought his whole name with him when he came. We don't know how it reads, but this is the way it looks in print: Harry Lepattalasaguaguilleranoepatotourola. As they usually do not have much time to spare out there they call him Harry Lepat. He generally responds before they could travel to the end of his name.

The U. S. Department of Agriculture is preparing to make experiments in Florida and to teach the sugar cane growers how to make "concrete" sugar. This is a hard sugar which takes the place of syrup. It may be packed, and when syrup is wanted all that is necessary is to pour some water on a lump of it, so that a fellow who hankers for that kind of "sweetnin" can carry it around with him in his pocket.

SENATORIAL CONVENTION MEETS AT SOUTHPORT.

Monday, Sept. 22d, is the Day Decided Upon by the Chairman of the County Executive Committees.

M. C. Guthrie, Esq., of Brunswick, and Geo. L. Peschau, Esq., of New Hanover, chairmen of their respective Democratic County Executive committees, yesterday issued a call for the convention of the Tenth Senatorial District, to be held at Southport on Monday, Sept. 22d, at 12:30 P. M. The purpose of the convention is to nominate a candidate for the State Senate, but as both counties composing the district have endorsed Geo. H. Bellamy, Esq., of Brunswick, the result is a foregone conclusion. The official call is as follows:

In accordance with the Democratic plan of organization, notice is hereby given that the Senatorial Convention for the Tenth Senatorial District, composing the counties of Brunswick and New Hanover, will be held at Southport, N. C., on Monday, the 22d day of September, 1902, at 12:30 P. M., for the purpose of nominating a Democratic candidate for Senator from said District.

M. C. GUTHRIE,
Chairman of Dem. Ex. Committee, Brunswick County.

GEO. L. PESCHAU,
Chairman Democratic Ex. Committee, New Hanover County.

LOCAL DOTS.

— An excursion of about 400 people from Conway, S. C., spent yesterday in the city and at the beaches.

— On Monday, Aug. 25, a grand colored excursion will be run from Darlington to Wilmington, at a fare of $1.50 for the round trip. Special car for white people, with white police to preserve order.

— Owing to the absence of the pastor, the Rev. P. McIntyre, of Faison, will conduct the services at St. Andrew's Presbyterian church to-morrow morning at 11 o'clock. There will be no services at night. Sabbath school at 4 P. M.

— John Holland and Joe Davis, colored boys, were arrested early last night by Policeman Holt near Front and Dock streets. They were locked up at the station house, charged with stealing a coat from Wm. Morris, a negro storekeeper in the vicinity.

Fracas in Negro Store.

Archie McDuffie, colored, was arraigned in the municipal court yesterday, charged with assault with deadly weapon, and gave bond in the sum of $25 for his appearance at the November term of the Superior Court. McDuffie works for the gas light company, and it is alleged that on Monday he went to the store of Chas. Kelly, colored, Eleventh, between Dock and Orange streets, and made no end of trouble for the proprietor, throwing a two-pound weight at him and making for him with a piece of iron. Kelly, upon whom the assault was made, was subsequently arraigned in Justice McGowan's court upon a similar charge, but the warrant was amended to charge disorderly conduct and the defendant was released upon payment of costs.

Crusade Against Vice.

The rather novel crusade against vice in the vicinity of Fourth and Castle streets has gained some headway if signs displayed conspicuously in that quarter are any criterion. Placards with the inscription, "This House will be Permanently Used as a Place of Worship," are posted on several of the front doors of houses in that locality. The places were formerly inhabited by women of alleged bad character.

Country Against Town.

The antipathy of the Wilmington negro for the average South Carolina darkey is proverbial. Yesterday the town darkey met the country darkey when E. P. Smith and Ashley Wortham clashed at the A. C. L. depot upon the departure of an excursion train. Policeman Leon George arrested them both and they will be tried for fighting by the Mayor this morning.

700 New Box Cars.

It is understood that in a short time work will be commenced in the Wilmington shops of the Atlantic Coast Line on 700 new box cars for the consolidated system. The cars will be of the standard recently adopted and of 60,000 lbs. capacity, each. The work upon this large undertaking will begin as soon as all the material arrives.

Baseball This Afternoon.

Another game of baseball, which promises to be spirited and interesting, will be played this afternoon at Hilton Park between the Delgado and Wilmington teams. The game will be called at 4:30 P. M. and a general admission of 15 cents will be charged. Ladies will be admitted free.

Improving Scott's Hill Road.

The county convict squad has begun the work of macadamizing the Newbern road. The rock is hauled from the quarry at Castle Haynes on cars and dumped at the railroad crossing near Mr. Oscar Pearsall's place in East Wilmington. The road will be macadamized as far as Scott's Hill.

NEW ADVERTISEMENTS.

J. W. Plummer—Fancy fruit.

Ludden & Bates—Big piano and organ sales.

BUSINESS LOCALS.

Lost—Book containing money.

ON THE RIVER FRONT.

New Crop Cotton Continues to Arrive in Advance of That of Last Season.

THE STEAM TUG BUCK SOLD.

Dingle & Webb, of Charleston, the Purchasers--Cross Tie Movement is Very Heavy—A Popular Captain and What He Saw.

Seventy bales of new cotton were received on the Wilmington market yesterday; all of it from points on the W., C. & A. railroad, from which most of the early staple has come thus far. Last year the first bale of new cotton was not received until Aug. 31st and the first steamer for a cargo did not arrive until September. The market remains firm on a basis of 8¼ cents for middling against a dull market at 8 cents on the corresponding day last year. It is estimated that with favorable weather conditions more than a thousand bales will be received next week, but the receipts are hardly expected to be large enough to make a record of 300,000 bales for the cotton year ending Sept. 1st. Up to last night the year's receipts were 278,287 against 258,438 bales to a corresponding date in 1901. The week's recipts at the close of business yesterday were 174 against 143 bales last year. The atmosphere of Fall has already commenced to pervade the wharf and at the Champion Compress great preparations are going on for handling the "South's great money crop." As previously noted the British steamship *Tuska* has arrived and has a berth there for a cargo. The half holidays on the wharf on Saturday will end next week and the wholesale men will set in for the heavy Fall's business that a large cotton crop in the territory contiguous to Wilmington is sure to bring.

The shipment of cross ties to northern ports from Wilmington has assumed large proportions and across the river on spare wharves, all is activity in this line. The Hall Tie & Lumber Co., of Richmond, has shipped a number of cargoes recently and Messrs. Flynn & Co., a new firm which was organized only a few months ago, is already doing a large business. The firm shipped its second cargo this week on the schooner *H. E. Thompson* which cleared yesterday for Boston with a cargo of 10,560 ties. The schooner *City of Baltimore* cleared yesterday also for New York with a cargo of lumber consigned by the Cape Fear Lumber Co.

Capt. N. A. Davidson, master of the schooner *Jos. W. Brooks*, a native of Virginia, and one of the cleverest of the clever mariners, who visit this port, enjoys the distinction of having seen the keel of the U. S. battleship *Maine* laid in Cramp's shipyard in Philadelphia and of having subsequently seen her destruction by the Spaniards in Havana harbor. He was in the schooner *Wm. H. Swann* at the time and talks interestingly of that event which played such an important part in the making of the world's history. Capt. Davidson's vessel having finished discharging will sail to-day for Savannah to receive a cargo. He has on board his family and a popular group of young friends as his guests.

A deed of sale for the transfer of the steam tug *Buck* from Capt. Herbert Ward to James N. Dingle and Thos. F. Webb, composing the firm of Dingle & Webb, of Charleston, S. C., was filed yesterday at the Custom House, the consideration named being "$1,750 or thereabouts." Capt. Webb becomes master of the boat and will use her for towing purposes here until Fall, when she will be taken to Charleston. The *Buck* was built in Wilminton in 1897, has a net tonnage of 14, draws 4.3 feet of water and is 50 feet long with 14½ feet beam.

The stock report filed yesterday on the exchange floors of the Chamber of Commerce shows a falling off in the receipts of all items in naval stores. However, for the crop year to date there is an increase of approximately 300 casks of spirits turpentine and an increase of about 1,000 barrels each in tar and crude. There is a falling off of about 4,000 barrels of rosin during the current year.

An Excursionist's Ill Luck.

Mr. W. B. Jones, a prominent business man of Conway, S. C., who was in the city yesterday on the excursion from that town, lost from his pocket a bill book containing about $26 in money, a number of drafts, checks, tax receipts, etc. The loss was very unfortunate, as Mr. Jones doesn't know where the book could have dropped from his pocket, and there is therefore slim chance of recovery unless it has fallen in the hands of some honest person. In the advertising columns Mr. Jones offers a reward for the return of the property to the store of Mr. W. B. Cooper.

Will Erect a Monument.

Live Oak Camp No. 6, Woodmen of the World, according to its custom, will erect a handsome monument over the grave of its late member, Edgar C. Burkheimer, who died about a month ago. The family of the deceased is now selecting a design for the monument, and as soon as it is agreed upon the Camp will take action. A committee composed of Messrs. John W. Stormfeltz, George B. Jackson and W. H. Howell will purchase the monument, and Messrs. W. G. A. Otersen, J. W. Fleet and John E. Wood form a committee to arrange for the unveiling.

FIFTH STREET M. E. CHURCH PREPARING FOR A JUBILEE.

Congregation Will Celebrate Its Deliverance from Debt—Prominent Methodist Divines Will Be Here.

To celebrate their deliverance from a debt, long standing and very onerous by reason of the unfortunate circumstances under which the obligation was incurred, the congregation of Fifth Street Methodist church has arranged for a big jubilee and season of spiritual rejoicing, beginning Oct. 1st and lasting five days. The bonds, covering the entire indebtedness of the congregation will be called in October 1st and that will be a signal for the opening of the jubilee. No formal programme has yet been arranged, but the popular and consecrated pastor of the church, Rev. Jno. H. Hall, has gone to work with a vim which is a safe earnest that the exercises will be of a highly interesting and appropriate character.

The chief feature of the week's observance, perhaps, will be a sermon on Sunday morning, Oct. 5th, by the distinguished Bishop A. W. Wilson, of Baltimore, one of the foremost divines of the Methodist Church, South. Bishop Wilson has already accepted the invitation and will certainly be here for the occasion.

There will also be a prominent group of North Carolina ministers here to take part in the jubilee. Rev. Mr. Hall has invited them and acceptance has been received from some. Those who will likely be here are Rev. D. H. Tuttle, of Elizabeth City; Rev. R. C. Beamon, of Washington, N. C.; Dr. L. L. Nash, of Rocky Mount; Rev. W. L. Cunninghim, of Durham; Rev. Dr. Jno. C. Kilgo, of Trinity College, and Rev. Dr. T. N. Ivey, editor of the North Carolina *Christian Advocate*.

YOUTHFUL TOURISTS RELEASED.

Young Tilley and Swing Turned Loose in Charleston—North Carolinians.

[*News and Courier*, 22nd.]

Because nothing could be heard from the parents of William Tilley and George Swing, two young tramps, who were locked up at the station house several days for safe-keeping, the prisoners were released by the police yesterday. When the lads were first arrested their relatives were notified, but after waiting three days for a reply Tilley and Swing were turned loose, the department having no charges against them. The youthful tramps announced their intention of returning to their North Carolina homes at the first opportunity. They left Wilmington about a month ago to seek their fortunes in South America, but the hardships and inconveniences they encountered on the trip to Charleston discouraged them from making further efforts to reach the gold fields of the Southern regions.

Here for Sandy King.

Deputy Sheriff R. L. Hagood, of Darlington county, S. C., arrived last night from the South and will take back with him to-day the negro, Sandy King, who was arrested here by the Wilmington police for the South Carolina authorities on a charge of assault upon a young girl with criminal intent. Deputy Hagood is armed with requisition papers for the negro, honored several days ago by Governor Aycock.

Mrs. Harper Ill in Baltimore.

Friends in Wilmington of Mrs. C. T. Harper will regret to know that she is very ill with typhoid fever at the home of her father in Baltimore, whither she went to visit about three weeks ago. Dr. C. T. Harper, who was in attendance upon the Supreme Lodge of Elks at Salt Lake City, Utah, and who expected to continue his trip to San Francisco, was recalled to Baltimore by a telegram announcing his wife's illness.

New Chief Draughtsman.

Mr. C. D. Meister, of New York, arrived yesterday and has taken the position of chief draughtsman in the motive power department of the Atlantic Coast Line in this city, succeeding Mr. W. W. Lemen, who recently resigned to go with the Norfolk and Western. Mr. Meister was formerly with the New York Central and Hudson River railway, with headquarters in New York.

Excursion to Charleston.

An excursion train over the A. C. L. from Wilmington to Charleston will leave the Front street station this afternoon at 3 o'clock and return Tuesday, leaving Charleston at 6 A. M. Jesse H. Lucas, the colored barber, near Front and Grace streets, is the manager, but ample accommodations will be provided for white persons. The fare is only $3 for the round trip.

Conductors Hit Hard.

Florence *Times*, 22nd: "The change in the running of the A. C. L. through trains has caused no little distress among the conductors who had made homes for themselves at one end or another of the line. Some of these were at Rocky Mount and some at Charleston. Some of the conductors have just built homes of their own and will have to sell or rent them."

Coast Line Extension.

Savannah *News*, 22nd: "The Atlantic Coast Line is surveying a new line from Punta Gorda to Fort Myers, Fla., a distance of about 25 miles. Engineer Law says the Coast Line people expect to push the line to completion as rapidly as possible."

— Rev. J. A. Smith arrived last night from the South and is a guest at The Orton.

CONVENTION ECHOES.

Returning Delegates Were Interesting Street Conversationalists Yesterday.

NOTES FROM STATE PRESS.

Editorial Expression from News and Observer—Robeson Has Columbus to Thank for Nomination—Other Notes of the Contest.

Having arrived on a belated train Thursday night in a downpour of rain, the "heavy weight" contingent of the New Hanover delegation to the Fayetteville Congressional Convention had little opportunity to give expression to their views upon the situation until yesterday. The convention in all its phases was vividly portrayed to anxious listeners. All appeared satisfied to abide the result, though many were disgusted with the suppression of a large and healthy sentiment in favor of their candidate by the adoption of the unit rule as applied to the Cumberland and Robeson delegations. There was also some criticism of the assignment of the New Hanover delegations to a remote corner in the rear of the convention hall. However, many of the Bellamyites in that isolated quarter were frequently heard from and the body of men who composed the delegation from the lower Cape Fear, was as representative as ever assembled in a Sixth District meeting.

The *News and Observer* of yesterday says editorially:

"The result of the closely contested fight for the nomination for Congress in the Sixth district resulted in the nomination of Hon. Gilbert B. Patterson, of Robeson. He has twice represented Robeson in the Legislature with ability, honesty and acceptability. Mr. Patterson is a graduate of the University, is about thirty-eight years old, has for a long period been a member of the State Democratic Executive Committee, and was a leader in his section in the great campaign that redeemed Robeson county in 1898. Mr. Patterson is a Presbyterian, an honest man, courageous and independent. He is well grounded in the Democratic faith and will truly represent the Democratic sentiment of his district.

Hon. John D. Bellamy, the retiring member of Congress, is one of the first men in the State. He has represented the district with conspicuous ability and had won reputation for wisdom in the national capital. Few men in so short a service have enjoyed wider popularity or attained greater usefulness."

In its report of the convention the Charlotte *Observer* says:

The monotonous call of the vote was boring and tiresome to the secretaries and chairman, and after midnight the delegates became restless and anxious for visible signs of progress. Reports of a successful deal by which this or that candidate would go in were soon put out. But it was evident that the fight was narrowing down to a sparring match among Brown, Patterson and Bellamy. Patterson needed a few more votes than the supporters of Hale could give. At one time there appeared to be a prospect of Bellamy's strength going to Brown, but it never materialized. If it had to be Brown or Patterson the Bellamyites were for the former. But the contest was brought to a sudden close not by a trick or plot, but by Brown throwing his personal following to Patterson. The Cumberland delegates were all ready and waiting to go to the man that could beat Bellamy. Twenty-six votes from Columbus made Patterson's nomination certain and Brown did the work.

Mr. A. P. McAllister, one of the secretaries of the convention, gives in his paper, the *Robesonian*, the correct figures of the last ballot as follows: Bladen, Hale 1, Brown 4, Bellamy 25, Patterson 4; Brunswick, Bellamy 18; Columbus, Bellamy 27 2-10, Patterson 16 8-10; Cumberland, Patterson 54; Harnett, Bellamy 22, Patterson 8; New Hanover, Bellamy 59; Robeson, Patterson 82; making a total vote by candidates: Hale 1, Brown 4, Bellamy 149 2-10, Patterson 164 8-10, nominating Mr. Patterson. The nomination was made unanimous.

Col. George L. Morton, one of the last delegates to leave Fayetteville, reached home yesterday evening. County Treasurer H. McL. Green, who was one of the most enthusiastic of the New Hanover delegation, continued his trip to Harnett county, where he will visit the scenes of his boyhood days before he returns.

Fayetteville *Observer*: "Mr. Matthews is to be congratulated on the superb manner in which he took care of the 200 and odd guests at the LaFayette during the convention, everyone of whom are loud in singing his praises and of his popular young assistant, Mr. Chas. Cagle."

Mr. H. E. C. Bryant in concluding his report of the Fayetteville convention to the same paper says: "Those who managed the fight in the convention for Mr. Bellamy stood for honest methods. He made a stubborn fight."

DEATH OF WILMINGTON LADY.

Miss Rosa Herring, Daughter of Mr. T. J. Herring, Died in Sampson.

[*Special Star Correspondence.*]

MAGNOLIA, N. C., Aug. 22.—Miss Rosa Herring, daughter of Mr. T. J. Herring, of Wilmington, died of malarial fever Wednesday, the 21st, at the home of her uncle, Mr. A. McK. Herring, near Taylor's Bridge, Sampson county, where she was visiting. She was an attractive young lady of 18 years, just entering upon the threshold of young womanhood and her death is a severe shock to the family and friends.

The burial was at the family grave yard in Sampson Thursday.

— Raleigh *News and Observer*: "Mrs. W. D. McMillan, Jr., and children, of Wilmington, are in the city on their return from the West and are the guests of Mr. and Mrs. W. J. Martin."

PERSONAL PARAGRAPHS.

— Miss Ethel Hopkins has returned from a visit to Fayetteville.

— Mrs. Charles A. Lertz, of Macon, Ga., is visiting her old home in this city.

— Mr. W. D. Malpass, of Long Creek, N. C., is in the city on a business trip.

— Misses Lizzie and Mary Peck are guests of Mrs. Williams Murchison at Boyce, Va.

— Messrs. W. J. McGirt and Ira Lennon, of Whiteville, N. C., were visitors to the city yesterday.

— Mr. James H. Cowan returned last night from Fayetteville, where he reported the convention for several papers.

— Fayetteville *Observer*: "Mrs. Helen Sheetz and Miss Katie Sheetz left this afternoon for Wilmington to be with Mrs. Sheetz's sister, who is ill."

— Capt. and Mrs. W. A. Sanders and three children returned yesterday from Beaufort, N. C., where they have been spending some time at Capt. Sanders' old home.

— Misses Jessie Scott and Dora Bevell, of Greensboro, and Miss Kate Gaster, of Fayetteville, and Mr. Bevell, of Greensboro, are at the Seashore Hotel.

How About That Tackle?

The blue birds are with us again. The streams and ponds are warming up. The fishermen should be looking up their outfits. Seeing if anything is wanted before the last minute.

As of old we are showing the finest things to tempt the fish kingdom and make the sport more sporty for the anglers.

Lines may be wanted; poles must be needed; hooks are very necessary, and in fact we have everything that is required to make a complete outfit.

To those that are interested in the sport, to those others that may not be so enthusiastic, we would consider it a favor to have all come in and look.

Seven Good Reasons

Why people should buy their Shoes of their home dealer, viz:

Because They can usually be fitted better.
Because They can buy as cheap or cheaper.
Because They can save transportation charges.
Because It inspires the home merchants to do better.
Because It is reciprocity in the true sense.
Because DOUGLAS and DUTTENHOFER SHOES are as good as can be made.
Because They can buy these goods only at

SALE OF ACCOUNTS.

On Saturday, August 23rd, 1902, at 12 o'clock M., at the Court House door in the City of Wilmington, N. C., I will sell by public auction, for cash, to the highest bidder, all accounts due the estate of H. L. Fennell, bankrupt, a copy of which accounts may be seen at the office of Bellamy & Bellamy, attorneys, and at the Court House door. The above sale is subject to confirmation by the Court.

August 16th, 1902.

MARSDEN BELLAMY, JR.,
au 17 1w Trustee.

The Morning Star.

BY WILLIAM H. BERNARD

WILMINGTON, N. C.

SATURDAY MORNING, AUGUST 23.

SECRETARY SHAW ON THE TARIFF.

Yesterday we made reference to the change of base made by Secretary of the Treasury, Shaw, in endorsing the Iowa Republican declaration for tariff revision, but he endorses it for the reason that it doesn't propose to do much revising and to take plenty of time to do it. He announces himself in favor of tariff reduction, so little at a time that it wouldn't be noticed and wouldn't make a ripple on the surface. What would tariff reduction like that amount to ?

He made a speech in the town of Morrisville, Vermont, last Tuesday, which was devoted altogether to talking on the tariff, with incidental reference to trusts, and a virtual defence of the Beef Trust. His speech was based upon the assumption that the high protective tariff is the creator of prosperity, and taking this for granted he builds his speech upon it, and declares that there must be no limb chopping, but a slight clipping of the branches, and that only after comparing notes and taking plenty of time to think about it, before there is any talking done, any "acrimonious debate," as he expresses it.

We call it an assumption, and an unfounded one, that the protective tariff is the mother of prosperity, for the history of this country shows that its progress and industries do not depend upon tariff protection, for some of its most notable progress was made under comparatively free trade tariffs. They did not then have, it is true, the great combines and trusts which we see now, but in proportion to population and wealth the country made as much if not more progress then than it has made under high protection. Secretary Shaw and other advocates and defenders of the protective system go upon the principle that the prosperity which follows a protective tariff is necessarily the result of that tariff. He is in favor when the tariff is high of reducing it on one or a dozen items, if a Republican Congres could agree upon them, and do it quickly so as to avoid acrimonious and prolonged debate; but if the protective tariff is such a prosperity producer and keeps everybody at work, why should any of the schedules be touched? When they are touched he insists that it must be done by a Republican Congress, not pledged to a revision in advance, but left free to compare notes and agree upon the trimming they would do.

How much dependence could be placed on this, little as it is? We have had two Republican Congresses in succession and a Republican President, but when has the suggestion for a reduction of duty on some things (not general revision) received the slightest encouragement ? The Republican Representative or Senator who suggests anything of the kind is immediately assailed and pronounced a "free trader."

A notable part of his speech is that in which he denies that the protective tariff is "the mother of trusts," but admits that "it leads to the organization of corporations." It leads to the combination of capital, and to the organization of labor. These combinations of capital, (with very few exceptions) are what are commonly known as trusts. But it doesn't matter about the name, the essential fact is that Secretary Shaw admits that the protective tariff creates conditions which lead to the "organization of corporations" and the "combination of capital." He might have expressed this more accurately if he had said colossal corporations and combinations of capital.

There is a virtual admission in this that he probably did not think of when he was singing the praises of the protective tariff as a prosperity promoter. He virtually admits one of the strongest objections made against the trusts—that they become monopolies, which control the buying and the selling prices of the things they deal in, and thus strangle individual effort and enterprise. This admission is made in the following reference to the movement of the butchers and retail meat dealers to organize and carry the fight against the Beef Trust into politics. He said :

"A few days ago the butchers, in convention assembled, declared in favor of abolishing the tariff on cattle and meat to the end that this supposed shelter for the alleged meat trust might be removed; but I am disposed to think the good farmers of my State would vote quite unanimously against such an experiment. By the trend of the speeches made at the butchers' convention I discover a sentiment well-nigh universally expressed there that meat is being monopolized by the great packers. But I happen to have a tenant out in Iowa who has a fine bunch of cattle, on which no packer holds a lien of any kind, and he wrote me that he is willing to sell them to butchers if they will pay as much as the packers offer. I am quite sure the people would as soon buy this meat of the butchers as of the packers. Thus there is afforded a splendid opportunity for anyone to make all kinds of money if he will but give the farmer as much money for his beeves and give the people as much beef for their money.

"Suppose we take the tariff off beef and then suppose the herds of cattle from Mexico and South America are brought in by the hundred thousand. They will find their way to the stock yards and the butchers will be compelled to bid against the packers then, as now.

"No, the removal of the tariff on live stock and meat would not restore the butchers to business. It might ruin the farmers, but the packers could stand it; for nothing less than organized capital could enter the import meat business with packing houses in foreign countries, refrigerating ships and other expensive equipment. I happen to know that at least one, and I understand two, of the big packing houses have had men looking into the South American field for more than two years. The farmer, as it is, has ample reason to be apprehensive."

The sum and substance of this is that there is no use of anyone without as much money as the Beef Trust has trying to do business against it. It is a monopoly too mighty for any individual or ordinary combination to contend against. But he admits that the protective tariff is indirectly, if not directly, the mother of the Beef Trust, since it has created the conditions that have made such mighty organization possible. And that is one of the fundamental objections to the protective tariff. Repeal of the protective duties on cattle, etc., might not "restore the butchers to business," it would not "ruin the farmers," but he could hardly deny that it would give the people cheaper meat, and that would be a considerable gain for them.

RUSSELL SAGE ON COMBINATIONS.

One of the most sensible utterances we have seen lately on the danger of great industrial combinations was that by Russell Sage, of New York, published in our press dispatches yesterday. He holds that while combination up to a certain stage may be beneficial, after that it becomes dangerous and a menace to prosperity. It is an illustration of the old saying about putting "all your eggs in one basket."

In these days the industries of the world have become so closely associated and inter-dependent that a derangement of one necessarily to a greater or less extent affects the other for good or for ill, more frequently for ill in the long run. Disaster to one means trouble if not disaster to another. Industrial depression in one country means business prostration and reduced purchasing power of the people of that country, which materially affects the countries which deal with them and supply their wants.

Take the great Steel Trust, for instance, which employs an army of men, and pays out annually millions in wages and for material, and fuel. Disaster to that practically means loss of work and earning power not only to the army of men employed by it, but loss of work by the thousands of men employed in the mines which supply it with iron and coal, and thousands of men employed by the vessels and railroads which carry its iron and coal to its plants, and its manufactured products to the home markets or to the shipping points. Disaster to it means ruin to the industry, and to other industries directly or indirectly associated with it. There is food for reflection in the cool, thoughtful utterances of Russell Sage.

AN OBJECT LESSON FROM MISSISSIPPI.

A dispatch from Tupelo, Miss., published yesterday tells of a clash between negroes and whites in that neighborhood, resulting in the shooting of several white men, and several negroes. This was not an ordinary melee growing out of too much indulgence in bad whiskey, but a defiance of the law by negroes who had been stealing from white people, who were insolent when caught and warned and followed their insolence by defying the law and shooting some of the white men sent to arrest them.

This seems to have been the outcome of the organization of a secret society among the negroes, the originating spirit in which is a negro preacher. Whether this is the same negro preacher who several months ago went around among the negroes down there organizing them into a secret band, the object of which was to protect each other from arrest, and to "terrorize" the white people, we do not know, but the object of this organization is the same, and the result the same, that is the shooting down of a lot of fool negroes who follow him as a leader and take his advice. That kind of negroes never seem to learn anything or to profit by experience. They go along blindly, and get themselves filled with shot, or run their necks into a noose and get choked to death.

While there are many sensible, thoughtful negroes who are doing all they can to lead their race in the right direction, in the way in which it should go, and give them wise warning and cool counsel, unfortunately one bad negro, especially if he masquerades in the garb of a preacher, can neutralize the good advice of all these and do more harm in some localities than all of them together could do good, as in the case of this trouble-instigator Rogers, and others like him, the best place for whom is under ground.

CASTORIA.
Bears the Signature of Chas. H. Fletcher. The Kind You Have Always Bought

Mrs. Greenup, of Kentucky, who travelled with her father when he was stumping for Congress, and soothed the savage breast by playing the fiddle for the sovereigns, told "confidentially" that she has declined one hundred and fifty offers of marriage. She is so much devoted to her fiddle that she wants to give her whole time to that. When Miss Greenup will give up a nice young man to stick to an old fiddle that's all we want to know about her.

Some people in Florida are lamenting the prospective extermination of the picturesque alligator, but the Jacksonville *Times-Union* consoles them with the remark that the extermination of this "water buzzard" would be a good thing, as they devour more fish in a day than all the people of Florida do in a year. They are as ravenous and not a bit more ornamental than the shark.

CURRENT COMMENT.

—The tariff on American pork is so high in Germany that few people can afford to eat it. Why don't the Germans adopt our plan and make the foreigner pay the tariff tax?—*Atlanta Journal Dem.*

—If the report be true that Charles M. Schwab is about to retire from active business, it scores another victim to the strenuous life required to make a millionaire out of a laborer by the time he is forty. Mr. Schwab's record is a wounderful one even in this land of marvelous opportunities. If he is sensible he will be satisfied with what he has already done and never make another dollar by work.—*Louisville Courier-Journal, Dem.*

—If Canada can coax away a few of the coal miners by the offer of a piece of land and employment at from $80 to $100 a month, it will do Canada some good and us no harm It appears that the Dominion has already secured about 80,000 of our Western farming people who have been induced to settle in the great wheat fields of the Saskatchewan; but, what's a trifle of of 80,000 people compared with 80,000,000?—*Brooklyn Citizen, Dem.*

—Nobody will deny that England has suddenly become intensely Boerish, and it is plain that the change is entirely commendable. So that when King Edward compliments the generals on their kindness to the British wounded, the last nail is driven into Chamberlain's plea of justification and the British public applauds. Will the stage directions now carry the brief direction, "exit Chamberlain?"—*Jacksonville Times-Union, Dem.*

TWINKLINGS.

— People who adopt the motto, "Love me, love my dog," should see to it that their dogs are of the most lovable type.—*Los Angeles Herald.*

— Young Doctor—Which kind of patients do you find it the hardest to cure. Old Doctor—Those who have nothing the matter with them.—*Judge.*

— Our officials should understand that Uncle Sam expects every man of them to do his duty. All except the custom's officials, of course. He expects them to collect it.

— He was practical and had been making love on that basis. She was a little that way herself. "Can you cook?" he inquired. "Can you supply everything to be cooked?" she replied. It was a match.—*Tit-Bits.*

— Mrs. Greene: You didn't say a word to your husband, after all. You said you'd speak to him when you saw him at breakfast. Mrs. Brown —But I didn't see him at breakfast. He was hidden behind his morning paper, as usual.—*Tit-Bits.*

— Think he's better fitted for Congress than any one else in your district, do you. I should say; he's a natural born Congressman. Why, he can take any old anecdate, twist it around a little and tell it as if it had been an actual experience of his own. —*Philadelphia Press.*

— A Protest: "Mary!" Mrs. Newcomer called down to the servant, "Mrs. Reuben Eck is crossing the road and I believe she's coming here. Run out and turn that doormat upside down." "Which one, ma'am?" "The one at the front door that has 'Welcome on it.'"—*Philadelphia Press.*

— "Ah!" said Biggs, as a prosperous looking man who had cordially saluted Diggs passed on. "That's the way I like to hear a man speak. He seemed sincerely glad to find you alive and well." "Yes." replied Diggs. "He probably was—he's the president of the company my life's insured in." —*Brooklyn Life.*

Saves Two From Death.

"Our little daughter had an almost fatal attack of whooping cough and bronchitis," writes Mrs. W. K. Haviland, of Armonk, N. Y., but when all other remedies failed, we saved her life with Dr. King's New Discovery. Our niece, who had Consumption in an advanced stage, also used this wonderful medicine and to-day she is perfectly well." Desperate throat and lung diseases yield to Dr. King's New Discovery as to no other medicine on earth. Infallible for Coughs and Colds. 50c and $1.00 bottles guaranteed by R. R. BELLAMY. Trial bottles free.

For Over Sixty Years

MRS. WINSLOW'S SOOTHING SYRUP has been used for over sixty years by millions of mothers for their children while teething with perfect success. It soothes the child, soften the gums, and allays all pain; cures wind colic, and is the best remedy for diarrhœa. It will relieve the poor little sufferer immediately. Sold by druggists in every part of the world. Twenty-five cents a bottle. Be sure and ask for "Mrs. Winslow's Soothing Syrup," and take no other kind.

You Know What You Are Taking

When you take Grove's Tasteless Chill Tonic, because the formula is plainly printed on every bottle, showing that it is simply iron and quinine in a tasteless form. No cure, no pay, Price, 50c sa tu th

DR. PIERCE'S GOLDEN MEDICAL DISCOVERY FOR THE BLOOD, LIVER, LUNGS.

SPIRITS TURPENTINE.

— Greensboro *Record*: Jesse Lamar of Jamestown, was in yesterday with a curiosity in the shape of an ear of corn. Not only every row of the grain had a separate covering of shuck, but each grain was likewise protected. If this species could be propagated it would make the finest feed on earth, though for meal it would be quite useless.

— Raleigh *News and Observer*: Mr. J. T. Johnson, of Silk Hope, Chatham county, Thursday brought to the Department of Agriculture a piece of ore which Secretary Bruner identified as green and blue carbonate of copper, it is a good specimen, with blue splotches of azurite and green malachite. There is some red that looks like cuprite. Mr. Johnson says there is a big ridge of this ore on his place.

— Concord *Standard*: In some of the operations at the Catawba Power Company's plant last week a find of three Indian skeletons was made. There were in the graves a lot of handsome beads, different from any ever found in this section before. Upon the breast of one warrior was found a tomahawk. It is reported that one of the bones, when measured by a 6-foot man's corresponding bone, overlapped the latter fully one-third.

— Mount Airy *News*: The fine crops raised in this section of the State will help the farmers out of a close place and make business lively among the merchants. The farmers are more hopeful than we have seen them in many years. Corn and tobacco promises well and prices of tobacco are good and getting better. Mr. R. L Gwyn tells us the present crop of corn is the largest ever grown in the county. The gloomy outlook for wheat last spring had something to do with the planting of a big crop of corn.

— Scotland Neck *Commonwealth*: Some months ago the *Commonwealth* printed a series of illustrated articles on pearls and how to find them in mussel shells. Recently Mr. J. M. Tillery has found a pearl in a mussel shell and doubtless by continuing his search he would find others. Mr. H. W. Mixon found a pearl in an oyster shell a year or two ago. He placed it away in a safe place and recently when he opened it he found that the pearl had grown to twice the size when he put it away and there were two other small pearls in the package.

— Pender *Chronicle*: The crop outlook in this county for every kind of farm product is far better at present than before the long period of dry weather was broken by the abundant rains of the past few weeks. The prospects for a cotton crop in this section, is better than for several years past. The corn crop, however, was severely injured before the end of the drought and this crop will be considerably shortened in some localities, as much as fifty per cent. The peanut crop, while not unusual, will be full and satisfactory. — According to the computation of the Register of Deeds and his assistant, Mr. David Bland, there is in Pender county $2,328,915.63 of taxable property. Of this amount $1,186,117 is the property of the white race, $132,104 the property of the colored race, and the remaining ing $1,008,694.63 is listed by the various corporations, operating within the country, the railroads, the telegraph companies and the steamboat companies. The wealthiest township in the county is that of Burgaw, possessing $190,201 of taxable property. Exclusive of the taxes received from the corporations, the county derives a revenue of $12,635.30 from taxes. Of this amount $10,032.20 is paid by the white tax-payers and $2,603.10 by the colored tax payers. There were found within the county only three persons having taxable incomes—that is to say incomes from fees, salaries and property not otherwise taxed, amounting to more than $1,000. Of these three persons, one is a resident of Burgaw township, the second a resident of Holly township and the third a citizen of Rocky Point township.

MRS. MARY EDDY.

CONCORD, N. H., Aug. 14.—An eminent lawyer of Baltimore, Maryland, John Henry Keene, has recently written and published a wonderful booklet entitled "Christian Science and its Enemies," in which he startlingly condemns the pulpit's unjust attacks upon Rev. Mary Baker G. Eddy and Christian Science.

A representative of the press called on Mrs. Eddy to inquire as to her endorsement of this book. In reply she said, "Upon reading the grand preface of Mr. Keene's book, I laid it aside from lack of time just then, and sent my compliments to the author, with an order for said books. After perusing his book thoroughly, I changed my opinion, not of the author's talents, scholarship, and high intent (although I have never seen him), but of the advisability of publishing the book, and immediately requested the parties to discontinue publishing it in its present form of treating the subject. I did this, solely, because the author's vehemence in denouncing the pulpit's furious attacks upon me was not consonant with my Christian sentiment. It is written of our great Master whose life and teachings furnish my model that "When he was reviled he reviled not again."

Not Completely Filled.

"Isn't this awful?" asked the common looking man on the crowded street car. "Isn't this awful? Why, there are already 165 people on this car."

"It is awful," agreed the person addressed, who was a street railway magnate. "It is awful! There ought to be at least twenty more in here. I'll take that conductor's number and have him on the carpet tomorrow."—*Baltimore American.*

Two Odd Ads.

A paper in Norway recently contained the following advertisement:

I, the undersigned, declare that, through a regrettable mistake, I circulated the rumor that the coffee house keeper, Jorgen Henriksen, had drunk a glass of beer. I humbly apologize to Mr. Henriksen for this unfounded imputation.

OLAF F. LIEN.

Another curious advertisement appeared the other day in an English paper. It was as follows:

Wanted.—By the advertiser, situation as plain cook in small family, where the mistress is not always at her heels. It causes unpleasantness; then she leaves. Any lady that does this sort of thing need not answer this.

What's Your Face Worth?

Sometime a fortune, but never, if you have a sallow complexion, a jaundiced look, moth patches and blotches on the skin, all signs of Liver Trouble. But Dr. King's New Life Pills give Clear Skin, Rosy Cheeks, Rich Complexion. Only 25 cents at R. R. BELLAMY's Drug Store.

SANTAL-MIDY
Arrests discharges from the urinary organs in either sex in 48 hours.
It is superior to Copaiba, Cubeb, or injections, and free from all bad smell or other inconveniences.
SANTAL-MIDY is contained in small Capsules, which bear the name in black letters, without which none are genuine. MIDY

Nourish the Weak Nerves, Build Up Wasted Tissue, and Purify the Stagnant Blood in August.

PAINE'S CELERY COMPOUND

Nature's Summer Medicine.

The One Great Health Builder.

Paine's Celery Compound supplies the needs of the weak, sickly and diseased in a way that no other medicine can do. It never fails to brace and strengthen the weakened nerves; it forms new tissue, and quickly purifies the foul and stagnant blood, allowing it to course with freedom and life to every part of the body. Paine's Celery Compound is the great furnisher of nutriment for the weak and run-down nervous system.

The use of a few bottles of Paine's Celery Compound produces results that are most astonishing and happy to the sick. The thin, emaciated body soon takes on solid flesh, the skin is clear, the eyes bright and sparkling, pain in the back is banished, the liver and kidneys work healthily, the digestive organs do duty with unfailing regularity, feelings of new energy and well being take the place of nervousness, despondency, and melancholia.

Nourishing the nerves, the formation of fresh tissue, and cleansing of the blood by Paine's Celery Compound, means a new, vigorous and happy life. There can be no failures when Paine's Celery Compound is used; it truly "makes sick people well."

The Unfinished Stone.

At Lord Rothschild's magnificent house, or, rather, palace, in Piccadilly, as at his country seat at Tring and in all the other Rothschild residences in England and on the continent, says London M. A. P., there is always in a conspicuous place, generally among the cornices, a piece of stone or marble left undressed, uncarved and in a rough and unfinished state, which, by reason of the beauty and splendor of its immediate surroundings, at once catches the eye. This is in compliance with the rule among all orthodox Jews that they should have no permanent abiding place until they are restored to the Holy Land, and this unfinished bit of stone is to mark that the abode is merely temporary and incomplete.

"Buffalo Bill's" Farm.

Colonel William F. Cody is one of the largest farmers in Uncle Sam's domain. He is constructing a big ditch in the Big Horn basin, in northwestern Wyoming, by means of which 600,000 acres of arid land will be reclaimed and made to blossom as a garden through irrigation. On this land and not far from Yellowstone park the flourishing little city of Cody has been built up within the past two years. Colonel Cody claims that his De Maris spring possesses wonderful curative powers, and he expects to start a "sanitarium for opera singers who have throat affection from oversinging and stomach affection from overeating and drinking" and treat them with De Maris water.—Argonaut.

A Plumber's Tip.

A plumber warns us that we are not to use potash or lye in cleaning the sink. He tells us that this unites with the grease that may cling around bends in the pipe, forming soap, and an obstruction results. This is perfectly reasonable, yet we are not likely to think of it. Ammonia and unlimited hot water are the best sink purifiers, and a sink strainer, through which all water is poured, is a very necessary convenience. It will cost about 20 cents at a department store.

SAVANNAH, Aug. 22.—Spirits turpentine was firm at 44½c; receipts 1,396 casks; sales 497 casks; exports 265 casks. Rosin firm; receipts 2,433 barrels; sales 1,560 barrels; exports 4,675 barrels. Quote: A, B, C, $1 10, D, $1 10, E, $1 15; F, $1 20; G, $1 25; H, $1 70; I, $1 95; K $2 55; M, $3 05; N, $3 50; W G, $3 60; W W, $3 80.

COTTON MARKETS.

By Telegraph to the Morning Star.

NEW YORK, Aug. 22.—The cotton market opened steady, with prices one to six points lower, following the lead of Liverpool, which market was down two and a half to three and a half points. Europe, the South and local bears were active sellers on the opening decline, and were doubly confident by the issuance of some 25,000 August notices, the belief being that this cotton would act as a load stone upon the market. The first sales of August was at 8.37, or nine points off from the final bid of last night. But just when everything seemed to favor the shorts, Wall street entered the ring as an aggressive buyer of the Winter months, while a well known spot cotton house bid August up with a rush. It later appeared that the latter firm had "stopped" a goodly portion of the notices and intended shipping the cotton to Europe. A report quickly gained circulation that Philadelphia interests had put out the August notices for manipulatory purposes, hoping to weaken the market and take in shorts in September to advantage. But after selling at 8.37 August worked straight up to 8.51 and September bounded up to 8.13 Finding the market here strong, Liverpool turned right about and covered shorts in both markets. The close there was very steady and the early loss was reduced to one and one-half to two points. Commission houses were quick to follow the lead of the Wall street bull contingent and bought freely. On the rise very bullish crop reports reached the ring from Georgia, Alabama, Mississippi, Louisiana, Arkansas and Texas. The latter State complained of continued burning temperatures, drought and rapid deterioration. Toward the close the market advanced several points on general buying and was finally very steady with prices net unchanged to eleven points higher, August alone being unchanged. Total sales were estimated at 225,000 bales, this representing an unusually active market for a summer month.

NEW YORK, Aug. 22.—Cotton steady at 9c; net receipts — bales; gross receipts 1,121 bales; stock 77,335 bales.

Spot cotton market closed steady; middling uplands 9c; middling gulf 9¼c; sales 668 bales.

Futures opened steady: August 8.38, September 7.99, October 7.86, November 7.79, December 7.78, January 7.83, February 7.80, March 7.81, May 7.81.

Cotton futures closed very steady: August 8.46, September 8.13, October 7.98, November 7.90, December 7.90, January 7.93, February 7.90, March 7.91, April 7.91, May 7.93.

Total to-day—Net receipts 5,649 bales; exports to Great Britain 3 bales; exports to France 1,522 bales; exports to the Continent 2,680 bales; stock 145,237 bales.

Consolidated—Net receipts 25,337 bales; exports to Great Britain 2,756 bales; exports to France 1,522 bales; exports to the Continent 16,965 bales.

Total since September 1st.—Net receipts 7,595,939 bales; exports to Great Britain 3,011,577 bales; exports to France 753,830 bales; exports to the Continent 2,812,598 bales

August 22.—Galveston, cotton steady at 8 7 16, net receipts 3,163 bales; Norfolk, quiet at 9c, net receipts 92 bales; Baltimore, nominal at 9¼c, net receipts 133 bales; Boston, quiet at 9c net receipts — bales; Wilmington, firm at 8¾c, net receipts 70 bales; Philadelphia, quiet at 9¼, net receipts — bales; Savannah, steady at 8¾c, net receipts 327 bales; New Orleans, quiet at 8¾c, net receipts 506 bales; Mobile, nominal at 8½c, net receipts 25 bales; Memphis, quiet at 8¾c, net receipts 10 bales; Augusta, firm at 8¾c, net receipts 365 bales; Charleston, quiet, net receipts 591 bales.

PRODUCE MARKETS.

By Telegraph to the Morning Star

NEW YORK, August 22.—Flour was fairly active on spring wheat grades. Wheat—Spot steady; No. 2 red —. Options—After an early spurt in September, owing to higher cables and unfavorable grading West, wheat declined under general realizing In the last hour it rallied again influenced by predictions of showers in the Dakotas and on late covering, but finally gave way and closed ¼@¾c net lower. The sales included: May closed 74½c; September 75¼c; December 72¾c. Corn —Spot firm; No. 2 66c. Options—September corn had a strong advance early on covering impelled by small receipts, strong Liverpool advices and showers West. It yielded to realizing sales at midday but September finally recovered on demand from shorts and closed 1½c higher against ¾c decline in other months. Sales included: May closed 44¾c; September closed 64¼c; December closed 47¾c. Oats—Spot dull and unsettled; No. 2 new 35c. Options market was quiet all day here and irregular, following the changes in corn: May closed 36¼c; December closed 36¼c. Lard easier; Western steam $11 10; refined lard steady; continent $11 30; South American $12 15; compound 7¾@8¼c. Rice barely steady. Pork firm. Butter steady; creamery 15½@19c; State dairy 15½@18¾c. Eggs firm; State and Pennsylvania 20@20½c. Tallow dull. Cheese —Market quoted easy to firm; new State full cream, small colored fancy 10c; small white 10c. Cabbages quoted easy; Long Island, per 100, $2 00@2 50. Peanuts steady; fancy hand-picked 5¾@5¾c; other domestic 3¾@5¾c. Potatoes easy; Long Island, $1 00@1 25; Southern sweets $1 50@2 50; Jerseys $1 00 @1 20. Coffee—Spot Rio firm; No. 7 invoice 5 9-16c; mild steady; Cordova 8@11¾c. Sugar —Raw steady; fair refining 2¾c; centrifugal 96 test, 3¾c; refined steady. Freights to Liverpool—cotton by steam 12¾c. Cotton seed oil was dull and steady on spot, but with little inquiry for new crop product. Closing: Prime crude, f. o. b. mills nominal, prime summer yellow 41¼@42½; off summer yellow 41½c; prime white 46¾@47c; prime winter yellow 47c; prime meal $27 00 nominal.

CHICAGO, Aug. 22.—Vicious and savage trading characterized the business on the board of trade to-day. St. Louis shorts in corn and wheat were punished severely. There was nothing particularly bullish in the early news but yesterday's exceptional bulge in corn frightened the corn shorts and at the opening there was a wild rush to get under cover. After prices all around had been boosted to figures to suit the big holders, manipulation made prices jump back and forth erratically. In the end the shorts suffered, the local longs secured fancy profits for their holdings and prices closed weaker. September corn closed unchanged, December ¼c lower; September wheat ¼@½c down; September oats 1@1½c off and September provisions suffered a loss of 10 to 20c

CHICAGO, August 22.—Cash prices: Flour steady. Wheat—No. 2 spring 73@74c; No. 3 spring 69c; No. 2 red 70¾@72½c. Corn —No. 2, —c; No. 2 yellow —c. Oats—No. 2, 29c; No. 2 white —c; No. 3 white 34@37c. Rye —No. 2 51c. Mess pork, per barrel, $16 55@16 60. Lard, 100 lbs., $10 65@10 67½. Short rib sides, loose, $9 85@9 95. Dry salted shoulders, boxed, $8 75@8 87½. Short clear sides, boxed, $10 75@10 87½. Whiskey—Basis of high wines, $1 31.

The leading futures ranged as follows—opening, highest, lowest and closing: Wheat—No. 2 September 71¾@72¼, 72¾, 70¾, 71¾c; December 67¾@68¾, 68¾, 67¼@67¾, 67¾c; May 69⅞@70, 70, 69⅝, 69¾@69¾. Corn—No. 2, September 57¼@58, 59¾, 55½, 57c; December 42¾@43¼, 43¼, 41¾, 42½c; May 40@40¾, 40¾, 39¼, 39½c. Oats—No. 2 September, old, 28, 28, 27, 27¼c; September, new, 34¼@34¾, 34¾, 33, 33¾c; December, new, 31, 31¼, 30, 30¾c; May 30¾@31¼, 31½, 30¼@30⅝, 30¾c. Mess pork, per bbl—September $16 95, 16 97½, 16 65, 16 65; October $17 02½, 17 10, 16 80; January $14 80, 14 87½, 14 52½, 14 52½. Lard, per 100 lbs—September $11 00, 11 00, 10 77½, 10 77½; October $9 95, 9 97½, 9 65, 9 70; January $8 45, 8 52½, 8 32½, 8 35c. Short ribs, per 100 lbs—September $10 12½, 10 17½, 9 92½, 10 02½; October $9 75, 9 82½, 9 67½, 9 75; January $7 72½, 7 73½, 7 60, 7 60.

FOREIGN MARKETS.

By Cable to the Morning Star.

LIVERPOOL, Aug. 22.—Cotton: Spot limited demand, prices easier; American middling fair 5 3-16d; good middling 4 15-16d; middling 4 27-32d; low middling 4¼d; good ordinary 4⅝d; ordinary 4½d. The sales of the day were 6,000 bales, of which 500 bales were for speculation and export and included 5,200 bales American. Receipts 2,100 bales, all American.

Futures opened quiet and closed very steady; American middling (g o c) August 4 42-64d buyer; August and September 4 37-64@4 38-64d seller; September and October 4 28-64@4 29-64d seller; October and November 4 22-64@4 23-64d seller; November and December 4 19-64d buyer; December and January 4 17-64@4 18-64d buyer; January and February 4 17-64@4 18-64d seller; February and March 4 17-64@4 18-64d seller; March and April 4 17-64d buyer; April and May 4 17-64d buyer.

BY RIVER AND RAIL.

DR. MOFFETT'S TEETHINA (TEETHING POWDERS)

Cures Cholera-Infantum, Diarrhœa, Dysentery, and the Bowel Troubles of Children of Any Age. Aids Digestion, Regulates the Bowels, Strengthens the Child and Makes TEETHING EASY.

Costs Only 25 cents at Druggists,

Or mail 25 cents to C. J. MOFFETT, M. D., ST. LOUIS, MO.

Columbus, Ga., Aug. 24, 1892.

DR. C. J. MOFFETT—Dear Doctor: We gave your TEETHINA (Teething Powders) to our little grand child with the happiest results. The effects were almost magical, and certainly more satisfactory than from anything we ever used. Yours very truly, JOSEPH S. KEY,

(Now Bishop Southern Methodist Church.) Pastor of St. Paul Church.

For sale by all good Druggists. R. R. BELLAMY can supply the trade with TEETHINA at Dr. Moffett's prices. je 3 1y

WOMEN MECHANICS.

Foundries and Machine Shops Where They Earn Good Wages.

The natural result of taking away from them nearly all the work that women formerly did at home and transferring it to shops and factories, where it is done by machinery, is that women follow the work into the shops and factories. To assist in making the machines and appurtenances employed in the shops is only one more step, and that step some of the girls have already taken.

In a beautiful region of New York state, a place where the air and water are as pure as they were at creation's morn, where smoke and dust do not as yet veil the sunshine so that mortal eye never sees its true brightness, there is a great milk condensing plant, one of the largest of all. A few women are employed in it, and scores of women come driving to it every day in their clean wagons full of shining cans to deliver milk to the factory.

Near the cannery itself stands another building, like everything else about the establishment, immaculately clean. In this building all the cans used in the great condensery are manufactured, and manufactured by girls and women. Scarcely a man is to be seen anywhere except the trained machinist-superintendent, who directs the work. Sheet tin is brought in packages to the factory. Girls manipulate the machines that cut it into strips for the cans. Others shape the strips round. Still others cut at a stroke the circular pieces that form the ends of the cans. On the pieces move as by clockwork to the solderers, likewise nice, clear eyed, clear skinned girls and women. The founder of the great milk condensing industry in the United States had cleanliness for a ruling hobby, and he enforced it so rigidly that every soul in his employ had to be spotlessly neat as to skin and clothing or get out.

The iron willed old gentleman's spirit seems to hover over that machine shop and cannery to this day, for both are really cleaner than many a city woman's parlor. The women in the machine shop wear pretty, light cotton wash dresses, for the work does not greatly soil hands or clothes. You could not find a pleasanter sight in a year's journey than these women at work. They earn very good wages, too, for a country neighborhood, $4 to $7 a week.

In Philadelphia the new woman has gone beyond making milk cans and is actually employed today in an iron and brass foundry. For her task here considerable physical strength is required. She does not do the actual work of making castings, but she makes the cores which are used in the process. If a wheel with a hole in the center is to be cast, it must have something in the center to keep the molten iron from running all together solid. That something to make the central opening is called a "core." It is required for all hollow castings. Most castings are hollow; many cores are necessary.

A core must be of material that red-hot iron will not melt or burn. Such a material is sand, which must be mixed with other noncombustible substances

ONE OF THE CORE GIRLS.

to make its particles stick together. The new woman takes the mixture and rams it solidly into a mold to give it shape. After she has done this another new woman covers the still soft core with lampblack paint. It is now ready to be baked like a piece of earthenware in an oven. Now comes in the task of a third new woman. The first and second girls turn out the cores shaped and painted as rapidly as possible; the third one gathers as many of them as she can conveniently carry upon a tray and takes them carefully to the oven, precisely as if they were biscuit upon a molding board. The oven is very hot, and the core is kept in it till the raw material is fused and baked hard and brittle. The lampblack paint comes out a hard, shining polish, so smooth the molten metal will not stick to it.

Of the cores that are small and easily made one set of three girls is able under good conditions to turn out 3,000 to 4,000 a day; of the larger, more complicated ones, not so many. The work is not so clean or so light as making tinsans, but is as well paid.

Women are employed in preference to men for the making of the cores because their fingers are more nimble and they can turn out more work in a given time than boys could. The girls are well treated and enjoy their occupation.

A woman, too, has lately made a small hand loom which is an article of perpetual use and entertainment in the home and schoolroom. She is Mrs. M. P. Todd of the Minneapolis public schools. Her invention grew out of her endeavor to give her pupils object lessons in the textile fabric industry.

MARY EDITH DAY.

THE GREEK IN GOTHAM.

Greece redivivus! There begins another cycle. Within the last ten years the Hellenists have driven the Romans (Italians) nearly out of the pushcart business and captured their corner fruit stands, says the New York Press. Now the "guineas" are facing another danger—the Athenian peril. Entering a palatial bootblacking parlor, I cheerfully saluted Romulus in Italian, but, lo, it was not Romulus at all, but a Greek Æneas, who had supplanted him. "Me no Ital. Me Greece!" he exclaimed. He then explained that the difference between Italian and Greek bootblacks is that the former have wooden chairs outside, while the latter have leather upholstered sofas on marble pedestals inside. His own outfit had cost $1,100. He had been in America three years, in which period he had saved $1,000 from peddling peanuts and bananas.

Give Them Room.

Crowding 200 hens into the space that ought to accommodate 100 will crowd out all the health, comfort, vigor, flesh, temper and eggs of your entire flock. Overcrowding is bad for any stock and particularly bad for feathered stock.

ALL OVER THE HOUSE.

Importance of Vigilance in the Care of Drains in the House.

The plumber and his unwelcome bill may be avoided oftener than not by strict attention to the so called trifles which necessitate his visit. One stringent rule should be made and kept with regard to drains. Even a wisp of hair, a burned rag or a piece of string will work mischief and, caught over the bend of the trap, will serve as a siphon which will remove the water seal, the one thing that separates the household from poisonous sewer gas. Coffee grounds and tea leaves clog pipes equally rapidly, and grease is terribly detrimental too. For this reason it is well to have a separate receptacle for this unpleasant and clinging substance. In this vessel the liquor has time to cool, thus enabling the cook to remove the fat surface, which can be thrown into the dust bin, while the remainder goes down the sink. All pipes in lavatories, sinks, etc., should be thoroughly flushed once a week with a couple of gallons of boiling water. It is also a good plan and not a troublesome one to clean out pipes as far as possible with a thick wire, having a swab of cotton wool attached at the end. The drain vents of basins, baths, etc., can be kept quite sweet in the same manner. Another enemy is milk, the smallest quantity of which is capable of fouling the pipes, leaving a sour smell which is not often accounted for. When the milk jugs have been washed and the pan is emptied, a flushing of moderately strong soda and water proves an excellent disinfectant, and once a week a weak solution of limewater, to which a little salt may be added, will accomplish the rest. After the latter process flush again with clean hot water from the tap.

Cushions and Baskets.

They are coming in sets, and very pretty they are too. There are the wastebasket, the sofa cushion and the workbasket, all old friends, but not before in agreeing colors. One of these sets is particularly pretty. It is made of yellow coutil, a delightful shade of pale yellow, and trimmed with bands of flowered cotton, the flowers fine and in a pretty shade of pink. The combination of pink and yellow is charming. The two baskets are of the kind known as portable. The wastebasket comes in pieces covered with the yellow and trimmed around with bands top and bottom, tied up when in use and untied when packed and becoming five flat boards. The workbasket is one of the round ones, with paneled sides, pockets and pincushions. It is drawn up when in use and let out to lie flat when packed.

White Man Turned Yellow.

Great consternation was felt by the friends of M. A. Hogarty, of Lexington, Ky., when they saw he was turning yellow. His skin slowly changed color, also his eyes, and he suffered terribly. His malady was Yellow Jaundice. He was treated by the best doctors, but without benefit. Then he was advised to try Electric Bitters, the wonderful Stomach and Liver remedy, and he writes: "After taking two bottles I was wholly cured." A trial proves its matchless merit for all Stomach, Liver and Kidney troubles. Only 50c. Sold by R. R. BELLAMY, Druggist.

IS YELLOW POISON in your blood? Physicians call it Malarial Germ. It can be seen changing red blood yellow under microscope. It works day and night. First, it turns your complexion yellow. Chilly, aching sensations creep down your backbone. You feel weak and worthless.

ROBERTS' CHILL TONIC will stop the trouble now. It enters the blood at once and drives out the yellow poison. If neglected and when Chills, Fevers, Night-Sweats and a general break-down come later on, Roberts' Tonic will cure you then—but why wait? Prevent future sickness. The manufacturers know all about this yellow poison and have perfected Roberts' Tonic to drive it out, nourish your system, restore appetite, purify the blood, prevent and cure Chills, Fevers and Malaria. It has cured thousands—it will cure you, or your money back. This is fair. Try it. Price, 25 cents.

Sold by J. C. SHEPARD, Jr., Wilmington.

GEO. O. GAYLORD

Has bought for cash the entire stock of fine Shoes from Mr. I. L. Greenewald on Market Street, and he now has these Shoes on sale in separate sections from his other Shoes in his large Store on Front Street.

It is needless for us to say much about this stock of shoes as Mr. Greenwald has been well known here for the past twenty years and the fact is well established that he carried the very best shoe that could be made of leather. I will say in relation to this stock that they are all new, fresh, clean goods and new and up-to-date styles. These shoes are all marked with Mr. Greenwald's selling price in plain figures and we will now offer them at just half price. He had a large quantity of children's fine shoes in sizes 1 to 5 and 5 to 8, that are as soft and fine as gloves, in both button and lace, tan and black.

A few pair of white kid slippers, shoe he sold for 50c, we will sell for 25c. His 75c shoe we will sell for 38c; $1 shoe for 50c and so on through the whole stock.

Now to the ladies who have small and narrow feet, we have something of unusual value to offer them, the lasts runs a, b, c and d, and the sizes 1½ to 5. They are all the best shoe, worth $2 to $5 a pair—remember we are selling Greenewald's fine $4.00 shoes now at $2.00. His $3 shoes for $1.50 and his $1.50 shoes for $1; his $1.50 shoes for 75c, and his $1 shoe for 50c.

It is a well known fact that I bought these to sell and not to keep, and as I bought them cheap I will sell them cheap.

Boys and Youths Shoes we have quite a nice assortment, from No. 9 in little gents' shoes to 5 1-2 in youths' sizes; we have them in box calf, kangaroo calf, soft kid and patent leather; we have 30 pair of men's fine calf skin shoes that Mr. Greenewald sold for $4 and $5 that we will sell for $1.25, in sizes 4 1-2 to 7. Men that have small feet can get a fit in these at one-fourth price. In addition to this stock we have about 7,000 pairs of shoes in our regular stock that we bought from the best factories in the country.

In Ladies' Shoes be sure to ask to see the Viciuos. We claim them to be equal to any $2 shoe sold in the city. This shoe is warranted by the factory to look, fit and wear well or a new pair given in their place. Our price, $1.50, any size or shape, button or lace.

While we carry almost everything you can call for in the Dry Goods line, and our stock in each department is equal to any store in the city, one of our strong features is shoes, and we want your shoe trade,—we ask that you spend your money where you get best values—a trial is all we ask.

In Rockingham Homespun for the truckers and farmers, we have 9,000 yards on hand, 2,600 yards in Rockingham Homespun in 1 to 10 yard pieces, that we are selling for 5 cents a yard. Plenty of Pee Dee Plaids.

Just received a big supply of Men and Boys Clothing. A full line of men's Overalls. Men and Women's Goodyear Rubber Shoes, at half prices. Men $1 Shoes for 50 cents, and Ladies 75 cents shoes for 38 cents.

Money talks. We pay cash and sell for cash and give you the best money can buy.

THE BIG RACKET STORE,

GEO. O. GAYLORD, PROPRIETOR.

P. S.—Plenty of Mosquito Canopies from $1.00 up.

SATURDAY MORNING, AUGUST 23

SITUATION IN VENEZUELA.

Little Danger Now Threatens American Interests—Two of the U. S. Warships Ordered North.

By Telegraph to the Morning Star.

WASHINGTON, Aug. 22.—The State Department is in receipt of a cablegram from Minister Bowen, at Caracas, saying that he could spare two of the war vessels now in Venezuelan waters. This information is taken to mean that the situation in Venezuela has improved so far that little danger now threatens American interests. Upon the receipt of the information contained in Minister Bowen's dispatch the Navy Department immediately ordered the Topeka and Cincinnati north. The latter vessel will stop at Cape Haytien and if in the opinion of our State Department representative there the presence of an American warship is desirable much longer, the Cincinnati may relieve the Machias. If the prospects are that the situation will soon warrant the withdrawal of our warships, the Cincinnati will proceed on her journey home and will shortly be followed by the Machias, which is now at Gonaives. The Marietta will remain in Venezuelan waters as long as Minister Bowen desires her, after which she probably will be ordered to Colon to insure the open transit of the Isthmus which the United States guarantees by treaty.

THE WORLD'S COTTON.

Total Visible Supply as Reported by Secretary Hester.

By Telegraph to the Morning Star.

NEW ORLEANS, August 22.—Secretary Hester's statement of the world's visible supply of cotton, issued to-day, shows the total visible to be 1,432,323 bales, against 1,511,839 last week and 1,747,278 last year. Of this the total of American cotton is 838,323 bales, against 903,839 last week and 1,045,278 last year; and of all other kinds, including Egypt, Brazil, India, etc., 594,000 bales against 608,000 last week and 702,000 last year.

Of the world's visible supply of cotton, there is now afloat and held in Great Britain and Continental Europe 841,000 bales, against 693,000 last year; in Egypt 45,000, against 67,000 last year; in India 344,000, against 391,000 last year, and in the United States 202,000, against 376,000 last year.

KENTUCKY OUTLAWS.

Posse in Pursuit of a Band Said to Have Committed Many Crimes.

By Telegraph to the Morning Star.

MIDDLEBORO, KY., Aug. 22.—An organized posse will leave Freeling, Va., to-night for the purpose of pursuing members of the George Potter band of outlaws, who are said to be guilty of several murders, robberies and numerous other offences. Their last crime was a criminal assault upon Miss Cora Wallis, a prominent young lady. George Potter, the leader and principal in the affair, was pursued by a posse and riddled with bullets. His comrades escaped and fled to the Kentucky border.

COMPARATTIVE COTTON SATEMENT.

For the Week Ending Friday, August 22d, 1902.

By Telegraph to the Morning Star.

NEW YORK, Aug. 22.—The following is the comparative cotton statement for the week ending August 22d, 1902:

WAR MANŒUVRES OF THE U. S. NAVY

Commander Pillsbury Trying to Make a Landing on the New England Coast.

EVERYTHING WAS FAVORABLE

A Thick Fog Shrouded Cape Ann and Adjacent Waters, But Higginson's Ships Guarding the Coast Were Vigilant and No Attempt Made.

By Telegraph to the Morning Star

ROCKPORT, MASS, August 22.—The contrast of conditions prevailing off shore this morning and those of yesterday were most marked, and those participating in or watching the war manœuvres of the navy early to-day found things favorable to the squadron under Commander John E. Pillsbury, which is trying to make a landing on the New England coast between Portland, Maine, and Provincetown, Mass., while Rear Admiral Higginson and his vessels defend the seaboard. This morning a fog, so thick that the water of the harbor could not be seen from naval headquarters, shrouded Cape Ann and the adjacent ocean. Yesterday, for miles in the bright, clear atmosphere, objects at sea could be clearly seen.

When the sun came up to-day the atmosphere was as clear as it could be and extended observations were made from all signal and lookout stations. Each reported that all was well and that there was no sign of the enemy. The receipt of these early messages interrupted the quiet which had prevailed at the naval headquarters here since 2 A. M., unbroken save by one report received from Portland at 3:45 A. M. This report was like most others sent in, that all was quiet. The report added that scout boats were sighted outside the harbor.

It was not long after sunrise that the fog set in. It was a dense cloud and at first impenetrable to the eye beyond a distance of ten or a dozen feet. Just before 9 o'clock there were indications that the sun was burning through the mist on shore.

Higginson's Squadron.

Aside from the fact that the Kearsarge, at least, was still at anchor off this place, little was actually known here as to the positions of the various ships of Admiral Higginson's squadron. Scouts had been reported off Portland. The cruiser Brooklyn skirted the end of Cape Cod early in the forenoon and went across to Plymouth. Thus both ends of the line of defence were found to be well guarded and as the naval experts here felt reasonably sure that the Alabama and Massachusetts were with the Kearsarge off Straitsmouth Point, the centre was thought to be safe. The station keepers here have been notified that the lookout line has been extended to Sanctity Head, on Nantucket, where the wireless telegraph station is located. From there all incoming ships will be queried as to whether or not they have seen any of Commander Pillsbury's ships and the results of these investigations will be signalled to the scout boats or the land stations.

By 11 o'clock the fog lifted and the battleships were seen in their usual positions. Observation in the distance, however, was impossible, owning to a haze which hung low over the water. All the signal and lookout stations reported during the forenoon, showing that the message system was intact. All the scout boats were heard from before 11 o'clock either at the station here or on board the Kearsage.

It is learned that the rules of the manœuvres in which the vessels are engaged permit the destruction of the ships of the opposing squadron, and it appears that the fear that Pillsbury may dash in and "disable" one of his vessels, is one reason why the defending fleet is kept so compact by Admiral Higginson.

In the afternoon the weather conditions again were changeable. At 3 o'clock the fog deserted Rockport and passed far out beyond the battleships, hanging away in the east more in the form of smoke.

From Straitsmouth Point, the trio of warships could be discerned very plainly. Then, suddenly it seemed as if the bank of fog was engaged in a race to the coast line again. The battleships could now no longer signal each other and the stations on Pigeon Hill and Straitsmouth were rendered for the time being out of action.

During the time that the fog prevailed the steel fighters remained motionless. Then, confronting Admiral Higginson and his co-workers was the danger in navigating their vessels. In this case, however, the admiral concerned himself with the more consequential possibility of Commander Pillsbury taking a position in some of the harbors unmolested.

Distracting Rumors.

An hour later the fog again lifted and piled up on the horizon, finally being broken up by a strong east wind. The black clouds covered the sky, followed by thunder. The watchers on shore believed that the long waited for battle had actually started. Then developed on land several rumors almost distracting in their nature to those who placed any credence in them. One of these was that there had been an accident on the Kearsarge and this was promptly denied from official sources. The storm continued till dark, when again the weather changed and the stars shone. Lightning, however, continued, serving now and then to illuminate the harbor of Rockport, so that one could see very plainly the two stake boats which had anchored inside the breakwater, to serve on the morrow during the official trial of the new battleship Maine. Dispatches from stations along the coast were not as frequent as they had been previously. There were, however, several very important telegrams which were immediately dispatched on government launches to Admiral Higginson.

Still at Sea.

Commander Pillsbury and his fleet of three auxiliary cruisers are still at sea. Unless the commander of the white squadron makes an attempt to reach a harbor within the next sixty hours, from midnight, his efforts to win a victory in the game of mimic war will fail, for theoretically it will be considered that his ships have sunk, or he has found that the blockade established by Admiral Higginson from Portland to Cape Cod cannot be broken. It is only fair to say that naval experts believe that Admiral Higginson's defence is good. Everything to-day certainly favored an attack by the enemy, but no scout of the blue squadron reported signs of Commander Pillsbury's fleet.

Belvedere Brooks, general superintendent of the eastern division of the Western Union Telegraph Company, has been appointed also general superintendent of the southern division of the same company, in place of Jas. Merrihew, who has resigned, to take effect September 1st. This combines the two superintendencies under one head.

GOVERNOR TAFT'S RETURN TO THE PHILIPPINES.

Received With an Ovation on Arrival in Manila—Twenty Thousand Natives Participated in Demonstration.

By Cable to the Morning Star.

MANILA, Aug. 23.—The day had been made a holiday and the city was decorated. Eight large arches had been erected on the streets. Twenty thousand natives from adjoining provinces participated in the demonstrations in honor of Governor Taft's arrival.

There was a parade of vessels in the bay and thirty decorated craft carrying members of the civil commission, military officers and the reception committee, met the General Alava down the bay and escorted Gov. Taft to the entrance of the Pasig river. The governor was escorted by a large procession to the palace in the walled city, where a public reception was held.

Responding to an address of welcome, Gov. Taft outlined the progress and the result of his negotiations at Rome in the matter of the Philippine friars, and said that all church questions were progressing towards a satisfactory settlement. The governor said the action taken by Congress concerning the Philippine islands showed that the American people honestly desired to help the Filipinos. The Americans were determined the islands should not be exploited by Americans at the expense of the Filipinos. Gov. Taft predicted eventually the archipelago would have practically free trade, and he congratulated the Filipino people upon the restoration of peace. He advised the Filipinos to till the soil and restore the country, rather than waste time in useless political agitation. He promised personally to labor for the natives and asked for their confidence and support.

Governor Taft was given an ovation in the streets of the city during his progress to the palace, and he received another ovation at his reception.

Gen. Chaffee's Movements.

General Chaffee returned to Manila to-day from his tour of the southern islands. He has not taken decisive action against the Moros on the island of Mindanao. He regards the situation there as uncertain but not critical. General Chaffee still hopes that moral suasion may avert a conflict between the Moros and Americans, and he has directed Captain John J. Pershing, of the 15th infantry, commander of the American column at Lake Lanao, Mindanao, to open communication with the Sultan of Bacolod and ascertain the reason for the repeated attacks by Moros upon the American soldiers when the latter were not on the offensive. He will await a reply from the Sultan before taking further steps in the matter.

At Ibgan, General Chaffee conferred with a number of the Moro chiefs, including some from the Lake Lanao district. The conference was quite friendly, and the leading chief agreed to visit Captain Pershing.

ANOTHER TRUST FORMED.

To Take in All Manufactories of Axes, Handles and Grindstones—Capital of $25,000,000.

By Telegraph to the Morning Star.

LOUISVILLE, KY., Aug. 22.—The *Times* to-day says:

Charles D. Gates, president and general manager of the Turner, Day and Woolworth Company, has just returned from New York, where he conferred with capitalists who are promoting a $25,000,000 trust, to take in all the axe manufactories, handle manufactories and grindstone factories in this country and Canada, the plants to be operated under one management.

Plans for the formation of the trust have been perfected and arrangements have already been made to take over the larger plants, though the deal may not be finally consummated for several months. Men of great wealth are interested in the project, which is to be financed by a big New York trust company.

An offer of $1,000,000 has been made for the Turner, Day and Woolworth plant, but Mr. Gates refused to discuss the matter further than to state "You can say that such a deal is on. A proposition has been made to this company, but as for discussing the matter in detail or its probable outcome, I cannot do so."

Despite the unwillingness of Mr. Gates to talk, it is stated on good authority that matters have so far progressed that options have been given on most of the plants desired.

CABLE CAR ACCIDENT.

One Man Killed and a Score or More of the Passengers Injured.

By Telegraph to the Morning Star.

KANSAS CITY, MO., Aug. 23.—A cable train crowded with passengers escaped from the control of the gripman in charge at the top of the Ninth street incline early this evening, and dashing down at a terrific speed, crashed into a train standing at the bottom. W. B. Taylor, gripman of the descending car, was killed instantly, and a score or more of the passengers were bruised, but as most of those were taken away by their friends the number of the injured and the extent of their injuries are not known.

The train at the bottom was being prepared for the return trip, but had been switched to the second train when the descending train, beyond control, came dashing down the incline. Passengers in both trains became panic stricken when the impending disaster was foreseen, and in their efforts to escape from both many had narrow escapes from death.

The incline which has been the scene of several fatal accidents is 300 yards in length, and starting at the top of the bluff at Pennsylvania and Ninth streets, decends at an angle of 65 degrees to an elevated platform.

THE FRIARS' LANDS.

Vatican Authorities Completed Collection of Documents on Philippine Question.

By Cable to the Morning Star.

ROME, Aug. 22.—The Vatican authorities have completed the collection of documents referring to the Philippine question for the use of the apostolic delegate at Manila, and it is conjectured that his appointment is imminent. A complete history of the negotiations on the subject of the friars' lands is given, including a summary of the voluminous report of Mgr. Chapelle, the former papal delegate in the Philippines, and the full text of the notes exchanged between Governor Taft and the Vatican.

Burnett's Vanilla Extract is the fixed standard of excellence. It has outlived criticism. It is the finest and purest vanilla extract that can be bought.

STRIKERS COMPEL WORKS TO CLOSE.

A Colliery and Washery Near Wilkesbarre Where Work Had Been Resumed.

STRIKERS WERE IN AMBUSH.

Kept Up Continuous Fire on Washery and Workmen's Quarters—Rumor That Work Will Be Resumed at Mines Under Military Protection.

By Telegraph to the Morning Star.

WILKESBARRE, PA., August 22.—The Butler washery and the Dodge colliery, of the Delaware, Lackawanna and Western Company, in which operations had recently been resumed, were closed to-day by striking miners. At the Butler washery the men marched out in a body. It is asserted by the men that all through last night strikers in ambush kept up a continuous fire on the washery and the shed in which the workmen slept. Not being afforded sufficient protection, the men say, they decided to suspend operation. Eighty workmen had been employed at the Dodge colliery and the strikers prevailed upon them to leave the workings.

President Nichols of this district issued a card to-day saying that the union has positions in the soft coal fields for 350 miners with certificates.

Troops at Tamaqua.

TAMAQUA, PA., August 22.—Acting upon the advice of General Gobin, the officers and men of the first battalion of the Twelfth regiment, stationed near here, sent to Shenandoah for their full equipments and their personal effects. This would indicate that General Gobin has decided to keep a detachment of troops in the Panther Creek Valley for some time.

To-day the mine workers sent a petition to Gov. Stone asking that the troops be recalled.

It is rumored here that the Lehigh Coal and Navigation Company is preparing to mine coal under the protection of the troops. The officials refuse to affirm or deny the report.

Shipments of Coal.

SHENANDOAH, PA., Aug. 22.—Fifteen cars of coal were shipped from Silver Creek colliery, near New Philadelphia this evening and as it was the first coal that has been prepared for market in that district since the strike began the strikers were very much excited and several hundred congregated along the railway track watching the train go by. The crowd got in an angry mood at the sight of the loaded cars, but there was no serious demonstration and affairs soon quieted.

SEABOARD AIR LINE.

President Williams Denies Rumors of a Merger With Other Roads.

By Telegraph to the Morning Star.

ATLANTA, GA., August 22.—With reference to rumors that the Seaboard Air Line would enter into a merger with other Southern roads, under the control of J. Pierpont Morgan, the following telegram was received to-day by an Atlanta paper:

"Reports that any negotiations are now or have been under consideration looking to a sale of the controlling interest in this system by its present owners are absolutely without foundation.

"The Seaboard Air Line is now and intends to remain independent, and will continue to devote its best energies and efforts toward advancing the interests of the territory which it now occupies, or which it may hereafter enter in its work of development.

"JOHN SKELTON WILLIAMS,
"President Seaboard Air Line."

THE SULTAN FRIENDLY.

Assures U. S. Minister That Pending Claims Against Turkey Will Be Settled.

By Cable to the Morning Star.

CONSTANTINOPLE, August 21.—Through the medium of Izzel Bey, one of his secretaries, the Sultan today sent a friendly message to the United States minister, Jno. G. A. Leischman, assuring him that all the pending claims of the United States would be complied with and begging the minister to resume his visits to the Porte. In consequence of these fresh assurances, Mr. Leischman today visited the grand vizier, Said Pasha, and the minister of foreign affairs, Tewfik Pasha. Mr. Leischman and Robt. S. McCormick, the United States ambassador to Austria Hungary, will attend the Selamlik to-morrow and will probably have an audience of the Sultan.

TWO BOYS DROWNED.

While Bathing in the Surf at Isle of Palms, Near Charleston, S. C.

By Telegraph to the Morning Star.

CHARLESTON, S. C., August 22.—Leon Phinzey, 13 years old, and Van Veronee, 12 years old, inmates of the Charleston Orphan House, were drowned to-day in the surf at the Isle of Palms.

Benjamin Harrington, 13 years of age, was with Phinzey and Veronee and was saved from the same fate by Rudolph Claus, who was bathing with the boys. The tide was at the full when the party entered the water, and with the strong east wind there was considerable undertow. Veronee could swim, while his companions could not, a fact which added to his confidence and seemed also to make the other boys believe that they could care for themselves. The boys suddenly lost their footing and were carried out too far.

THE WILCOX CASE.

Will Come Up Before the State Supreme Court Next Tuesday, Aug. 26th.

By Telegraph to the Morning Star.

ELIZABETH CITY, N. C., Aug. 22.—The law brief of the Wilcox trial was completed to-day and immediately forwarded to the clerk of the State Supreme Court. The hearing will not be delayed, as was feared, and the case will come up before the Supreme Court Tuesday, August 26th.

It is rumored in Liverpool shipping circles that on the decision of the Cunard Line not to join the shipping combine, the government has consented largely to increase the company's mail subsidy.

The Best Prescription for Malaria

FATALITIES IN SWITZERLAND.

Bodies of Four Men Found Near Summit of the Wetterhorne.

By Cable to the Morning Star.

GRINDELWALD, SWITZERLAND, Aug. 22.—The bodies of two Londonders named Fearon and those of two guides, who started August 19th to ascend the Wetterhorne and who did not return, have been found by a search party near the summit of the mountain. Two of the party were apparently killed by lightning and two met their deaths by falls.

Two bodies only were recovered by the rescue party. They were those of R. B. Fearon and a guide named Bravand. Both bodies were blackened by lightning and still roped together. The handle of the guide's ice-axe, was found stuck in the snow on the summit of the Weterhorne, it had been split by the lightning. The guide's body was partly consumed and his skull crushed. No traces of the bodies of the other members of the party were found. It is believed, however, after being overtaken by a snow storm, August 20th, that they were blown over a precipice into the Wetterkessel gorge, where they are hidden by the snow.

FIRE AT WESTCHESTER, N. Y.

The Catholic Protectory Damaged to the Extent of $10,000.

By Telegraph to the Morning Star.

NEW YORK, August 22.—A fire of unknown origin started to-day in the tower of the main building of the Catholic Protectory in Westchester. Owing to insufficient water pressure the building was for some time in serious danger, but the fire department of the institution, composed of boys, held the flames in check until the arrival of the engines, summoned on two alarms, when the fire was soon extinguished after it had spread to one of the upper dormitories. Perfect discipline was maintained among the 800 boys in the institution, who at the first alarm took their regular fire stations and went through the customary drill. The damage is estimated at $10,000.

FIVE CHILDREN DROWNED.

Harrowing Holiday Tragedy at a Watering Place in England.

By Cable to the Morning Star.

LONDON, August 22.—A harrowing holiday tragedy occurred to-day at Filey, a watering place near Scarborough. Five children, who were playing on the sands, were cut off by the inflowing tide and drowned before their mothers, who were sitting on the beach, had noticed the danger which threatened them. The shore at the scene of the tragedy was deserted and no boats were available. The mothers of the children and others made heroic attempts at a rescue. The oldest child made a futile attempt to save the smallest one by holding it up in his arms. Those who attempted to rescue the children had narrow escapes from drowning.

PASSENGER TRAIN WRECKED.

Near Fort Scott, Kansas—Engineer and Fireman Were Injured.

By Telegraph to the Morning Star.

FORT SCOTT, KAS., Aug. 22.—The 'Frisco system Southern limited train, south bound, heavily laden with passengers, was derailed at Edward's Junction, near here, while running at a speed of thirty miles. Some one had driven a spike between the switch rails and opened the switch half-way. The engineer and fireman were injured, but none of the passengers was hurt. The engine was derailed and the baggage car was thrown across the tracks, but the coaches and Pullmans remained on the track. Detectives are working on the case.

WOMEN MADE A RAID.

Completely Demolished a Saloon at Belmont, Near Nashville, Tenn.

By Telegraph to the Morning Star.

NASHVILLE, TENN., Aug. 22.—Belmont, a small town six miles west of Nashville, was the scene of much excitement, when a mob composed of women, made a raid on a saloon and completely demolished it. The saloon, or "blind pig," has been running for some days. Women organized at one of the houses and marched in a body to the saloon. When they began throwing rocks through the windows and proceeded to enter and finish the work, breaking bottles and completely wrecking the place, the proprietor fled.

MARTINIQUE'S VOLCANO.

Mont Pelee Again in Eruption—Followed by Total Darkness.

By Cable to the Morning Star.

CASTRIES, ISLAND OF ST. LUCIA, August 22.—Officers of the steamer Dahomey, which arrived here to-day, report a severe eruption of Mont Pelee, on the Island of Martinique, at noon of yesterday. The eruption was followed by total darkness five miles away from the volcano. It was twenty minutes before it again became light. The Dahomey was obliged to change her course to escape the volcanic dust which fell heavily upon her deck.

WARM WIRELETS.

Waller Bailey, colored, was hanged at Selma, Ala., for the murder of Robert Hunter in October 1899.
